

Curriculum Vitae

Prof. Michal Feldman
School of Computer Science, Tel-Aviv University
michal.feldman@cs.tau.ac.il

Personal Details

- Born: Israel, 1976
- Gender: Female
- Marital status: married+5

Education

- Ph.D.: University of California at Berkeley, Information Management and Systems, May 2005.
Thesis title: Incentives for cooperation in peer-to-peer systems.
- B.Sc.: Bar-Ilan University, Computer Science, *Summa Cum Laude*, June 1999.

Academic Positions

- 2017 - present:** Full Professor, School of Computer Science, Tel-Aviv University, Israel.
Associate Professor, School of Computer Science, Tel-Aviv University, Israel.
- 2013 - 2017:** Associate Professor, School of Business Administration and Center for the Study of Rationality, Hebrew University of Jerusalem, Israel.
- 2011 - 2013:** Senior Lecturer, School of Business Administration and Center for the Study of Rationality, Hebrew University of Jerusalem, Israel.

Additional Positions

- 2013 - present:** Visiting Researcher (weekly visitor), Microsoft Research, Israel.
- 2011 - 2013:** Visiting Researcher (weekly visitor), Microsoft Research New England, Cambridge, MA, USA.
- 2011 - 2013:** Visiting Professor, Harvard School of Engineering and Applied Sciences, Center for Research on Computation and Society, School of Computer Science, Cambridge, MA, USA (Marie Curie IOF program).
- 2008 - 2011:** Senior Researcher (part-time), Microsoft Research in Herzliya, Israel.
- 2007 - 2013:** Member, Center for the Study of Rationality, Hebrew University.
- 2005 - 2007:** Post-Doctoral Fellow (Lady Davis fellowship), Hebrew University, School of Computer Science and Engineering.
- 2004:** Ph.D. Intern, HP Labs, Palo Alto, California, USA.

Grants (Funding ID)

- European Research Council (**ERC**) Starting Grant: “Algorithmic Mechanism Design - Beyond Truthfulness”: **1.4 million Euro**, 2013-2017.
- FP7 Marie Curie International Outgoing Fellowship (IOF): “Innovations in Algorithmic Game Theory” (IAGT): **313,473 Euro**, 2011-2014.
- Israel Science Foundation (ISF) grant. “Equilibria Under Coalitional Covenants in Non-Cooperative Games - Existence, Quality and Computation:” 688,000 NIS (172,000 NIS /year), 2009-2013.
- Google research grant, “Electronic Auctions and Markets Research:” \$90,000 (\$30,000 / year), 2010-2012.
- Council for Higher Education in Israel, Yigal Alon Fellowship. \$10,000 (\$5,000 /year), 2009-2010.

Selected Prizes and Honors

- Rector’s Award for Excellence in Teaching, Tel-Aviv University, 2016.
- Semi-plenary speaker, Fifth World Congress of the Game Theory Society (Games), Maastricht, Netherlands, 2016.
- Forbes’ list of 50 most influential women in Israel, 2016.
- The Marker’s list “**40 under 40**” (promising young people under the age of 40), 2014.
- Member of the **Young Israeli Academy** for Sciences (appointed August 2012, one of 26 scientists who were appointed to the Academy on its inauguration year).
 - Member of the management committee of the Young Israeli Academy, 2015-present.
- Member of the **Global (International) Young Academy**, 2010-Present.
- Abe Gray prize for excellence, Hebrew University of Jerusalem, 2008.
- **Yigal Alon Fellowship** award from the Council for Higher Education in Israel for outstanding young researchers, 2008.
- Best student paper award, ACM EC 2007.
- Lady David Fellowship for post-doctoral studies, Hebrew University of Jerusalem, 2005-2007.
- SIMS Fellowship, UC Berkeley, 2000-2001.
- Dean’s Award for Academic achievement, Bar-Ilan University, 1998, 1999.

Selected Invited Talks

- Plenary speaker, Symposium on Algorithmic Game Theory (SAGT), 2017.
- Plenary speaker, Conference on Web and Internet Economics (WINE), 2015.
- Semi-plenary speaker, World Congress of the Game Theory Society (Games), Maastricht, Netherlands, 2016.
- Plenary speaker, The International Symposium on AI and Mathematics, Florida, 2012.
- Plenary speaker, Workshop on Advances in Algorithmic Game Theory, Amsterdam, 2011.

Membership in Editorial Boards

- Associate editor, *Games and Economic Behavior (GEB)*, 2017 to present.
- Associate editor, *Mathematics of Operations Research (MOR)*, January 2016 to present.
- Guest editor, *ACM Transactions on Computation and Economics*, Special Issue on ACM Conference on Economics and Computation 2015.
- Associate editor, *Journal of Computer and System Science*, April 2014 to present.
- Associate editor, *Networks*, May 2010 to present.
- Associate editor, *ACM Transactions on Computation and Economics*, May 2011 to present.
- Associate editor, *Annals of Mathematics and Artificial Intelligence*, January 2014 to present.
- Guest editor, *ACM Transactions on Computation and Economics*, Special Issue on Algorithmic Game Theory, May 2013.
- Guest editor, *Games and Economic Behavior*, 2014 (Special Issue on ACM EC 08-09).

Organizing Committees

- Organizer, Workshop for young researchers on Economics and Computation, 2017.
- Co-PC chair, ACM Conference on Electronic Commerce, 2015.
- Co-Poster PC chair, Conference on Web and Internet Economics, 2014.
- Co-organizer, Ad Auctions Workshop, ACM Conference on Electronic Commerce, 2013.
- Tutorial chair, ACM Conference on Electronic Commerce, 2012.
- Co-organizer, Special semester (Spring 2011) on Algorithmic Game Theory, Institute for Advanced Studies, Hebrew University of Jerusalem. The program brought together many of the key international leading researchers and influencers of this field, with the goal of elucidating the main challenges of the field and charting the future course of the field for the next decade.
- Co-organizer, International Workshop on Innovations in Algorithmic Game Theory, May 2011, Hebrew University of Jerusalem, Israel.
- Co-organizer, First, Second, Third, Fourth and Fifth Israeli Seminars on Computational Game Theory, 2006-2009.
- Session Organizer and chair, Israeli Operations Research Society Conference (ORSIS), 2008 and 2009.

Program Committees / Senior Program Committees

ACM Conference on Electronic Commerce (EC) (2007, 2008, 2009, 2010, 2011, 2014, 2016), International Joint Conference on Artificial Intelligence (IJCAI) (2009, 2010, 2011), National Conference on Artificial Intelligence (AAAI) (2007, 2011), Symposium on Algorithmic Game Theory (SAGT) (2010), Joint Workshop of Economics of Networked Systems and Incentive-Based Computing (2007), Workshop on the Economics of Networked Systems (2008), European Symposium on Algorithms (ESA) (2008), International Conference on Electronic Commerce (2009), Israel Association for Information

Systems (2009), International Conference on Current Trends in Theory and Practice of Computer Science (2009), International Colloquium on Automata, Languages and Programming (ICALP) (2012, 2014), Joint Workshop on Pricing and Incentive in Networks and Systems (2014), Workshop on the Economics of Web Search and Social Networks (2013), Conference on Web and Internet Economics (2013), Conference on Web and Internet Economics Poster PC Chair (2014), Conference on Web and Internet Economics (2015), International World Wide Web Conference (2016), Ad Auctions Workshop (2016), Conference on Autonomous Agents and Multiagent Systems (AAMAS) (2017).

Referee in Academic Journals (selected)

SIAM Journal on Computing (SICOMP), IEEE Journal on Selected Areas in Communication (JSAC), IEEE/ACM Transactions on Networking (TON), Artificial Intelligence Journal (AIJ), Theoretical Computer Science (TCS), Econometrica, Journal of Economic Theory (JET), Games and Economic Behavior (GEB), Management Science.

Additional professional service

- Vice chair of ACM SIGEcom (Special Interest Group on Electronic Commerce), 2015 to present.
- Member, Scientific board of the Israel Math Museum Initiative.

Graduate students and postdoc fellows

- M.Sc. students: Yoav Wilf (graduated 2012), Tom Ron (graduated 2012), Ophir Friedler (graduated 2015), Tomer Ezra (graduated 2017), Sella Nevo, Guy Reiner (graduated 2016), Ofir Geri (graduated 2015), Iddan Golomb (graduated 2016), Kineret Segal, Tzahi Taub.
- Ph.D. students: Alon Eden (co-advised with Prof. Amos Fiat), Ophir Friedler, Tomer Ezra.
- Postdoc fellows: Alan Roytman (co-supervised with Prof. Yossi Azar), Svetlana Obratzova (co-supervised with Prof. Amos Fiat), Inbal Talgam-Cohen (co-supervised with Prof. Noam Nisan), Ilan Nehama (co-supervised with Prof. Yishay Mansour).

Teaching

- *Discrete Mathematics*, Tel-Aviv University, Fall 2014, Fall 2015.
- *Mechanism design seminar*, Tel-Aviv University, Fall 2014, Spring 2015.
- *Price of Anarchy*, Tel-Aviv University, Spring 2014.
- *Algorithmic Game Theory*, Tel-Aviv University, Fall 2013, Spring 2015.
- Co-Founder of the *Internet studies program*, School of Business Administration, Hebrew University of Jerusalem.
- *Computational Issues in Game Theory*, Hebrew University, Spring 2008, Spring 2009, Spring 2010, Fall 2010.
- *Topics on The Border of Computation and Economics*, Hebrew University, Fall 2009.
- *Electronic Commerce*, Hebrew University, Spring 2009, Spring 2010.
- *Networks and Markets*, Hebrew University, Fall 2010.
- *Intelligent Information Systems*, Hebrew University, Spring 2009, Spring 2010.

Publication List

(Number of Google scholar citations are indicated for a selected sample, total number of citations is over **3950**. **i10-index 51**, **h-index 26**).

Journal Publications

1. Michal Feldman, Nick Gravin and Brendan Lucier
“ Simultaneous Auctions are (almost) Efficient”
Games and Economic Behavior, Special Issue on STOC’13, (in press).
2. Michal Feldman and Ofir Geri
“ Do Capacity Constraints Constrain Coalitions?”
ACM Transactions on Economics and Computation, 5(1): 8:1 — 8:26 (2016).
3. Michal Feldman, Nick Gravin, Brendan Lucier, “Combinatorial Walrasian Equilibrium”, *SIAM Journal on Computing*, 45(1): 29–48 (2016). .
4. Michal Feldman, Hu Fu, Nick Gravin and Brendan Lucier, “Simultaneous Auctions are (almost) Efficient”, *Games and Economic Behavior*, *Special Issue on STOC’13*, (forthcoming).
5. Noga Alon, Yuval Emek, Michal Feldman and Moshe Tennenholtz, “Economical Graph Discovery”, *Operations Research (OR)*, 62(6), 2014.

Book Chapters

1. Moshe Babaioff, John Chuang and Michal Feldman, “Incentives in Peer-to-Peer Systems”, in *Algorithmic Game Theory*, edited by Noam Nisan, Tim Roughgarden, Eva Tardos and Vijay Vazirani, Cambridge University Press, September 2007.

Working Papers

- Un-biasing Committees (with Yishay Mansour, Noam Nisan, Sigal Oren and Moshe Tennenholtz).
- Welfare, Instability and Item Prices (with Brendan Lucier and Nick Gravin).
- 99% Revenue via Enhanced Competition (with Ophir Friedler and Aviad Rubinfeld)
- Pricing Identical Items (with Tomer Ezra, Tim Roughgarden and Warut Suksompong)
