Research Student – Aorato

Location: Herzeliya

This Job is eligible for the following work arrangements: Part-Time

Aorato team in Israel (Acquired by Microsoft) is an innovator in enterprise security.

Aorato will give customers a new level of protection against threats through better visibility into their identity infrastructure. With Aorato we will accelerate our ability to give customers powerful identity and cyber-security solutions that span on-premises and the cloud, which is central to our overall hybrid cloud strategy.

Aorato’s sophisticated technology learns entities’ behavior by building organizational security interaction graph and analyzes it using machine learning, to detect suspicious activities of users, devices and resources on a company’s network.

Requirements:

• Excellent student (85 GPA) for B.Sc./M.Sc. degree in Computer Science or a related technical discipline, 4th semester or above.
• Fluent enough in at least one programming/scripting language to independently code a working Proof of Concept (PoC) to demonstrate your ideas
• Good understanding of Networking and LAN networks
• Knowledge and love for communication protocols and their analysis
• Team player, confident, independent and enthusiastic!
• Knowledge in security, preferably hands-on
• Experience with network analysis using Wireshark
