

CALL FOR PAPERS

Seventh International Conference on Formal Structures for Computation and Deduction (FSCD 2022)

August 2-5, 2022, Haifa, Israel

<https://fscd-conference.org/>

In-cooperation with ACM SIGLOG and SIGPLAN

FSCD 2022 will take place as part of FLoC 2022 (Federated Logic Conference).

PROGRAM COMMITTEE CHAIR

Amy Felty Univ. of Ottawa
fscd2022@easychair.org

PROGRAM COMMITTEE

Amal Ahmed	Northeastern Univ.
Thorsten Altenkirch	Nottingham Univ.
Takahito Aoto	Niigata Univ.
Kazuyuki Asada	Tohoku Univ.
Franz Baader	TU Dresden
James Cheney	Univ. of Edinburgh
Agata Ciabattoni	Vienna Univ. of Technology
Horatiu Cirstea	Loria
Nachum Dershowitz	Tel Aviv Univ.
Gilles Dowek	Inria & ENS Paris-Saclay
Carsten Fuhs	Birkbeck, Univ. of London
Hugo Herbelin	Inria & Univ. of Paris
Patricia Johann	Appalachian State Univ.
Daniel Licata	Wesleyan Univ.
Salvador Lucas	Univ. Politècnica de València
Christopher Lynch	Clarkson Univ.
Ralph Matthes	IRIT, CNRS, TU Toulouse
Paul-André Mellies	CNRS, Univ. of Paris
Alexandre Miquel	Universidad de la República
Georg Moser	Univ. of Innsbruck
Daniele Nantes	Univ. of Brasília
Vivek Nigam	Huawei ERC & UFPB
Carlos Olarte	UFRN
Valeria de Paiva	Topos Institute
Giselle Reis	CMU Qatar
Masahiko Sakai	Nagoya Univ.
Renate Schmidt	Univ. of Manchester
Martina Seidl	Johannes Kepler Univ.
Sam Staton	Univ. of Oxford
Christine Tasson	Sorbonne Univ.
Benoît Valiron	LRI & Univ. of Paris
Stephanie Weirich	Univ. of Pennsylvania

CONFERENCE CHAIR

Nachum Dershowitz Tel Aviv University

WORKSHOP CHAIRS

Shaull Almagor Technion
Guillermo A. Pérez University of Antwerp

PUBLICITY CHAIR

Carsten Fuhs Birkbeck, University of London

FSCD (<https://fscd-conference.org/>) covers all aspects of formal structures for computation and deduction from theoretical foundations to applications. Building on two communities, RTA (Rewriting Techniques and Applications) and TLCA (Typed Lambda Calculi and Applications), FSCD embraces their core topics and broadens their scope to closely related areas in logics, models of computation, semantics and verification in new challenging areas.

The suggested, but not exclusive, list of topics for submission is:

1. Calculi: Rewriting systems (string, term, higher-order, graph, conditional, modulo, infinitary, etc.); Lambda calculus; Logics (first-order, higher-order, equational, modal, linear, classical, constructive, etc.); Proof theory (natural deduction, sequent calculus, proof nets, etc.); Type theory and logical frameworks; Homotopy type theory; Quantum calculi.
2. Methods in Computation and Deduction: Type systems (polymorphism, dependent, recursive, intersection, session, etc.); Induction, coinduction; Matching, unification, completion, orderings; Strategies (normalization, completeness, etc.); Tree automata; Model building and model checking; Proof search and theorem proving; Constraint solving and decision procedures.
3. Semantics: Operational semantics and abstract machines; Game Semantics and applications; Domain theory and categorical models; Quantitative models (timing, probabilities, etc.); Quantum computation and emerging models in computation.
4. Algorithmic Analysis and Transformations of Formal Systems: Type Inference and type checking; Abstract Interpretation; Complexity analysis and implicit computational complexity; Checking termination, confluence, derivational complexity and related properties; Symbolic computation.
5. Tools and Applications: Programming and proof environments; Verification tools; Proof assistants and interactive theorem provers; Applications in industry; Applications of formal systems in other sciences.
6. Semantics and Verification in new challenging areas: Certification; Security; Blockchain protocols; Data Bases; Deep learning and machine learning algorithms; Planning.

PUBLICATION The proceedings will be published as an electronic volume in the Leibniz International Proceedings in Informatics (LIPIcs) of Schloss Dagstuhl. All LIPIcs proceedings are open access.

SPECIAL ISSUE A special issue of Logical Methods in Computer Science is planned.

SUBMISSION GUIDELINES Submissions must be formatted using the LIPIcs style files and submitted via EasyChair: <https://easychair.org/conferences/?conf=fscd2022>. Submissions can be made in two categories. Regular research papers are limited to 15 pages, excluding references and appendices. They must present original research which is unpublished and not submitted elsewhere. System descriptions are limited to 15 pages, excluding references. They must present new software tools, or significantly new versions of such tools, in which FSCD topics play an important role. An archive of the code with instructions on how to install and run the tool must be submitted. In addition, a webpage where the system can be experimented with should be provided. Additional instructions on submitting a paper can be found on the conference web site. **One author of an accepted paper is expected to present it at the (physical) conference**, unless Covid restrictions prevent travel.

IMPORTANT DATES All deadlines are midnight anywhere-on-earth (AoE); late submissions will not be considered.

Abstract: February 8, 2022 **Rebuttal:** March 29–April 1, 2022 **Final version:** April 30, 2022
Submission: February 11, 2022 **Notification:** April 15, 2022 **Main Conference:** August 2–5, 2022

BEST PAPER AWARD BY JUNIOR RESEARCHERS The program committee will select a paper in which at least one author is a junior researcher, i.e. either a student or whose PhD award date is less than three years from the first day of the meeting. Other authors should declare to the PC Chair that at least 50% of contribution is made by the junior researcher(s).
